SUMMIT

20 YEARS OF SCIENCE, SUCCESS & SERVICE

Yesterday, Today, and Tomorrow

CORPORATE MESSAGE

In 1998, 4Life® started with the release of 4Life Transfer Factor™, and Founders David and Bianca Lisonbee's dream to take transfer factors to the world began. Since then, the company has expanded to more than 50 countries across the globe, and we now have offices in 24 markets, a state-of-the-art manufacturing facility, and hundreds of thousands of distributors who have changed their lives with the help of 4Life.

This year, we celebrate the 20th anniversary of 4Life. It may have started small, but now 4Life resides among the top 100 direct selling companies in the world!

At 4Life Global Headquarters, we're continually working to support you with new state-of-the-art products and marketing tools. I hope you'll utilize these advancements to help build your business. For example, recent additions like the new Builder Bonus program and Master Builder trip, 4Life University, and the redesigned 4Life App give you even more rewards and tools to build your 4Life business.

For the entrepreneurs in Europe we have prepared a 20th anniversary incentive to encourage all the Presidential Diamonds and International Diamond to live a different life. Read page 8 for more details.

I invite you to come to Salt Lake City, Utah for 4Life20 Convention: Do Life Differently™, April 11–14. Come to hear from Founders David and Bianca Lisonbee, learn from top distributors and guest speakers, purchase brand-new products that are only available at 4Life20 Convention, and spend time with 4Life family members from all over the world. I hope to see you in April!

Sincerely,

Danny Lee President & CEO

INTERNATIONAL DIAMOND | GERMANY

Saying yes to this project was one of the best decisions of my life.

I was in a very difficult situation a few years ago regarding my health and then I found out about transfer factors. This information came just at the right moment. I trusted my intuition, but I did not realise at the time that this would be one of the best presents that I had ever got in my life.

I recovered my health, and I decided that I could not keep this fantastic gift all to myself but that I also had a responsibility, which I was more than ready to comply with, towards everyone else. Because the Tri-Factor Formula is such a blessing for this world.

At that time, I had already been a successful and independent entrepreneur for many years and, since things had gone very well for me, my focus in the beginning was not on the business concept.

With great enthusiasm and as if I had been given a loudhailer, I told everyone that I met about these remarkable transfer factors, making it possible for me to enrich the life of so many people.

This way I of course did become aware of the business concept through which the transfer factors are steadily distributed throughout the world - after all, they can't do it on their own. Only by linking up with other people can we jointly achieve major progress.

To do good, and to be richly rewarded on top, that is the experience I was allowed to make through this project. I still remember how I could not believe in the beginning that the incredible possibilities offered by this project were both genuine and material in nature, and actually real: "Let your dreams come true!"

I began to realise that we have the choice of either living in future worn out and spending the remainder of our life with a small pension, or that we can enjoy our twilight years with 4Life, and with a balanced and passive income - but only if we are willing to get involved in this project.

But the most satisfying aspect for me, however, is the togetherness, the mutual support and the fact that we are there for one another. You become part of a family and make friends through this project, and that alone gives me so much energy that I am eternally grateful!

"I would like to congratulate Sibylle, for her passionate engagement and her perseverance in the achievement of her aims. Her company stands for growth and stability, which is why I am pleased about the distinction of her membership in the President's Club, which is to be recognized at the 4Life20 International Convention."

Rafael Fernández
 Vice-President, 4Life Europe

I love you so much, dear Eve, dear Angels! Dearest Eve, you have guided so many of my steps in this project, and have led me time and again with your know-how, love, patience, sense of humour and inspiration - you have always been at my side. I am eternally thankful to you for that! And I thank you, dear Angels, for everything that you continue to do for everyone in this team. Setting spirited examples with your whole heart and with an unconditional enthusiasm, you have reminded me from the start of my task and inspired me to share this project with many people. I thank you so much, dear Gabi and dear Martin, that you have brought the information about the Tri-Factor Formula into my life, and that you are always ready to help. And it speaks for itself that I love my fantastic teams, who are travelling along with me on this road and who bring the message of the transfer factors to the world with so much dedication - I am ever so thankful for their fabulous commitment. And I thank you ever so much, David and Bianca, that you had the courage and the foresight to introduce these transfer factors to the world and launch a business project that offers people the opportunity to lead a life that provides a suitable balance between health, time and money.

And I am thankful to myself that I have decided to participate in this project, because it has been one of the best decisions of my life!
